Description

Type: medical terry socks

Composition: cotton 84%, poliyamide 13%, Lycra® 3%, Sanitized® finish

Design: 3 colours,

Description:
Terry socks of special design ensuring perfect grip to the leg without binding, with antibacterial, antifungal and anti-odour properties. The three-layer terry fabric protects sensitive areas of the foot while the fine and cool fabric over the foot ensures good ventilation. Socks designed particularly for people with blood circulation problems in legs.

The CE mark for a medical product
Awarded at "DIABETICA EXPO 2008"!
