Description

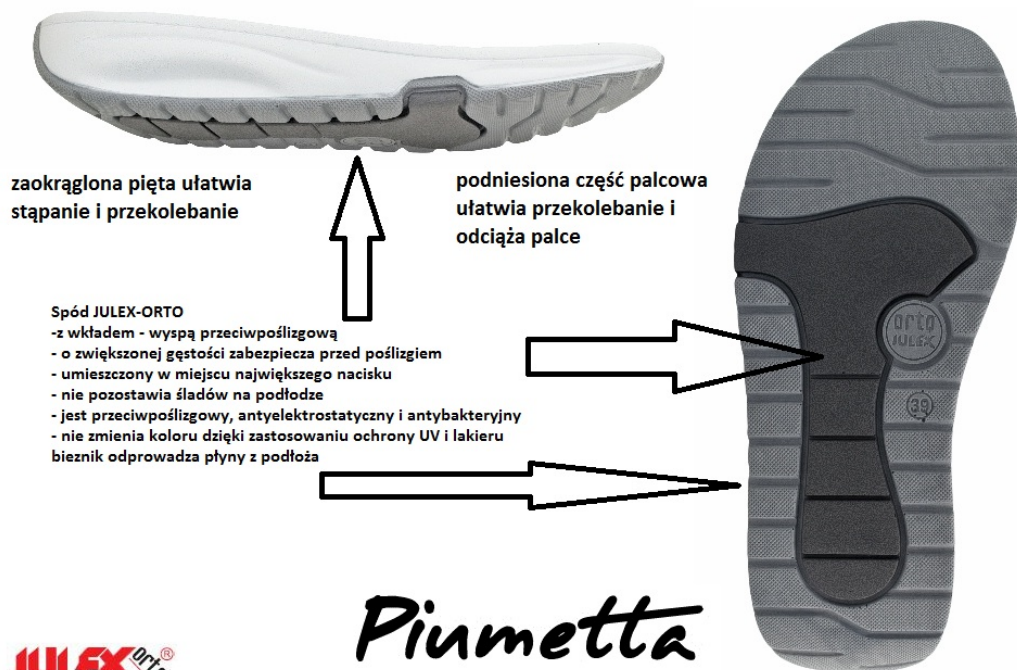

Piumetta 6272-P Women's Medical Sabots – Comfort and stability in one The Piumetta 6272-P model is our advanced line of professional footwear for women, designed for those who require the highest level of fit and stability. By combining an adjustable instep strap with an additional heel strap, these women's sabots ensure a perfect fit even during the most demanding workdays. Why are Piumetta 6272-P women's sabots synonymous with ergonomics? Equipped with a specialized rocker sole, the 6272-P actively supports skeletal health. The sole design promotes correct posture, reducing lower back pain, while advanced cushioning effectively minimizes micro-shocks when walking on hard hospital floors. Hygiene and comfort thanks to modern Microfiber The interior of this women's model is made of high-quality microfiber, protecting the foot from chafing and ensuring long-lasting freshness. The SHAPE insole molds precisely to the user's foot, providing personalized comfort and even pressure distribution for hours. Who are Piumetta 6272-P women's sabots for? This footwear is dedicated to women who need secure foot support (thanks to the heel strap), value the ability to adjust the width individually, and are looking for durable professional footwear that combines modern technology with long-lasting quality. Feel the difference in fit. Choose Piumetta 6272-P women's sabots and enjoy stability that adapts to you.

Collection

Piumetta®
made by JULEX

Piumetta is a collection of comfortable women footwear designated for work and everyday use. Models within this series were designed to ensure comfortable use and aesthetic values. Light, anatomically moulded soles were selected to ensure the highest level of comfort. Each model is made of best quality materials. Piumetta footwear is designated for persons exposed to overstraining their feet during a work day.
